[Presentations](#) > [Project Management](#) > [Complete Microsoft Office and Mac Works Integration](#) > [Audio Notes](#)

		Features	iMindMap Versions		
			Elements	Professional	Ultimate
<p><b>New Features for iMindMap V4.0</b></p>		<p><b>Presentation View</b> Do you want to design, create and deliver effective, impressive and powerful presentations? Well iMindMap Ultimate's Presentation View is your answer. It smoothly animates your Mind Map branch by branch for you at a click of a button, providing a unique and dynamic presentation that is sure to make your audience sit up and take notice.</p> <p>Not only can you zoom, pan and link but the two screen option provides a Presenter's View displaying your notes and a host of other tools to make sure you stay calm, cool and collected during even the toughest of presentations.</p>			

	Give yourself instant confidence, standout and get your message remembered!			
	<p><b>Fully Integrated Project Management System</b> This comprehensive project management tool is essential for anyone who needs to manage people or tasks. The system can be used throughout the whole project management process for effortless planning and managing.</p>			
	<p>Create Mind Maps to scope projects then add your tasks, dates, predecessors, milestones and durations. Task progress icons are displayed within your Mind Map. View as a Gantt chart, spreadsheet or Mind Map. Tasks, milestones and contacts can be fully integrated with Outlook® and you can also Export your work to Project®</p> <p>Now find improved tools that will help your project run even more smoothly and efficiently.</p>			
	<p><b>Audio Notes</b> Record and add Audio Notes to your branches to help capture ideas quickly without hindering the creative process. This feature also includes the additional auto-record facility which allows you to Mind Map, whilst in the background iMindMap listens and records what you 'say' for you to review later on.</p> <p>This is a great tool for group brainstorming sessions when lots of ideas are being captured and many authors find it useful when Mind Mapping plots and storylines.</p>			
	<p><b>Enhanced Word Import</b> Convert your Word documents into fully structured brain-friendly Mind Maps. Great for summarising long reports &amp; docs</p>			
	<p><b>Box Branches</b> A simple and effective solution for adding more detailed information to your branches</p>			
	<p><b>Editable Text Mode</b> A revamped Text Mode now lets you edit your text, graphics or links within it and your changes will then be incorporated into your Mind Map</p>			
	<p><b>Freeform Brainstorming</b> A quick fire way of capturing your ideas – fast!</p>			
	<p><b>Interface Enhancements</b> More features, fewer buttons, better usability. Our pop-up menu saves time and ensures your thinking process is not interrupted</p>			
	<p><b>Attaching Data</b> Drag and drop files, text, images and web links directly onto your Map – this really is</p>
