

Tony Buzan

Tony Buzan is the inventor of Mind Maps®, the most powerful 'thinking tool' of our times.

The Chairman of Microsoft, Bill Gates recognised its importance in his article entitled 'The Road Ahead – How Mind-Mappers are taking our information democracy to the next stage':
..."a new generation of 'mind-mapping' software can also be used as a digital 'blank slate' to help connect and synthesize ideas and data – and ultimately create new knowledge"... (Newsweek Issues, 2006).

Tony Buzan is the author of more than 35 books and co-authored almost 50 others. Use Your Head, Use your Memory and Speed Reading have become classics and have been translated into more than twenty languages.

Tony's other landmark books include The Mind Map Book, Brain Child, Buzan's Book of Genius (with Raymond Keene), and The Brain Smart Leader (with Tony Dottino and Richard Israel).

Tony Buzan has presented or been featured in documentaries (Such as BBC "In Search of Genius") as well as in many television and radio talk shows.

In early 2001 Mindwerx International established the Buzan Centre:Australia/NZ, and founders Jennifer Goddard and Bill Jarrard are proud to be presenting Tony Buzan's official Mind Mapping® and Advanced Learning Techniques training and accreditation programs.
